

# Reproducible Research in R

2025-01-21

## Contents

Reading: . . . . .	1
--------------------	---

## Reading:

### Required Reading (everyone):

- Handout: Jonathan Gilligan, “Introduction to Reproducible Research”.
- Handout: Jonathan Gilligan, “Citations and Bibliographies in Quarto”.

### Optional Extra Reading:

- Handout: Lenny Teytelman, “No More Excuses for Non-Reproducible Methods,” *Nature* **560**, 411 (2018), [doi:10.1038/d41586-018-06008-w](https://doi.org/10.1038/d41586-018-06008-w).

## Reading Notes:

Read the following handouts

Introduction to Reproducible Research is a key reading for today

Citations and Bibliographies is a reference that you will mostly use in the future. Don’t feel like you have to digest everything today.
